Why automatic time tracking?

Teams often struggle with time management, leading to decreased productivity and missed deadlines.

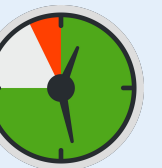

More deadlines met

by teams that use automatic time tracking to improve accountability

Monthly savings

achieved by a team of 11-50 after automatic tracking helps projects wrap up on schedule

Why choose DeskTime?

Fully automatic

Unlike most trackers, DeskTime tracks work **automatically in the background**, capturing app, website, and document activity without much manual input.

Privacy-conscious

Employees can pause tracking anytime with Private Time, no explanation required, **turning DeskTime into a tool teams actually trust.**

Accurate reports

Reports cover productivity, attendance, app usage, and project time in one place, **giving managers a full, real-time picture of team performance.**

Smarter integrations

DeskTime **connects to your entire tech stack** through native integrations, the DeskTime API, and Zapier, linking to 9,000+ tools with no code required.

**Help teams make sense of
their work**

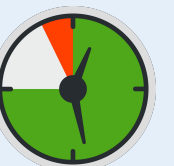

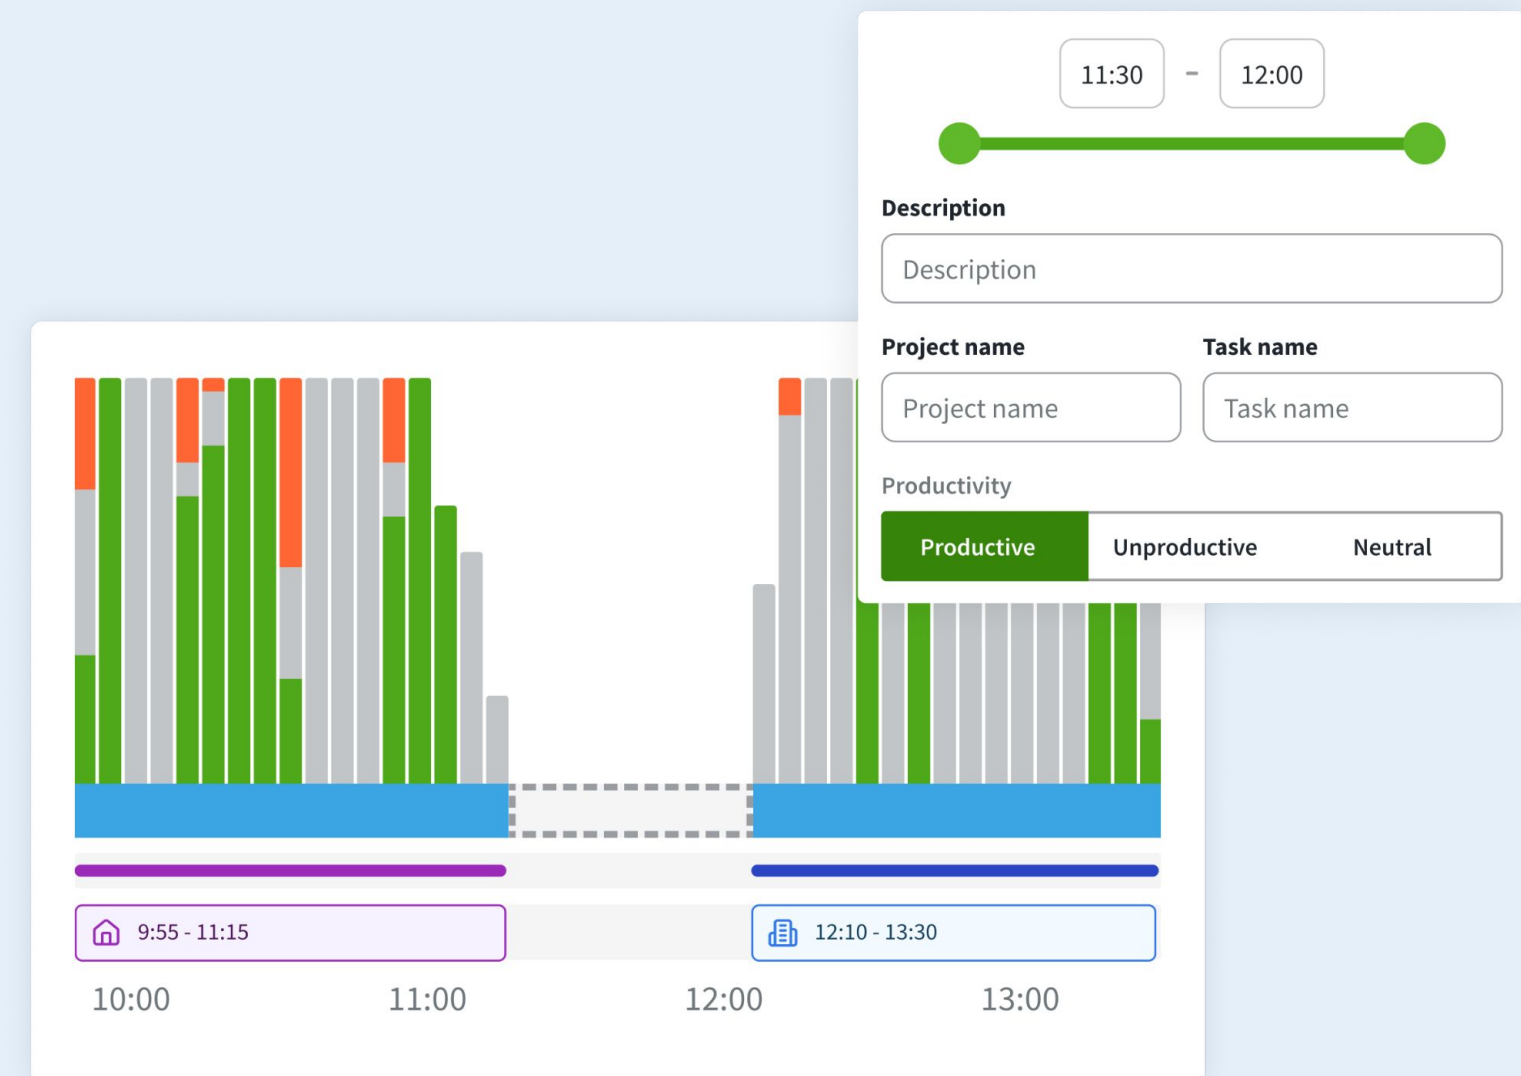

Automatic time tracking

Utmost precision with no extra effort

Most time trackers need you to clock in, clock out, and fill in gaps by hand. DeskTime starts tracking the moment you turn on your computer, stops when you go idle, and **needs very little manual input.**

Additional features:

- [URL and app tracking](#)
- [IP Location tracking](#)
- [Project tracking](#)
- [Document title tracking](#)

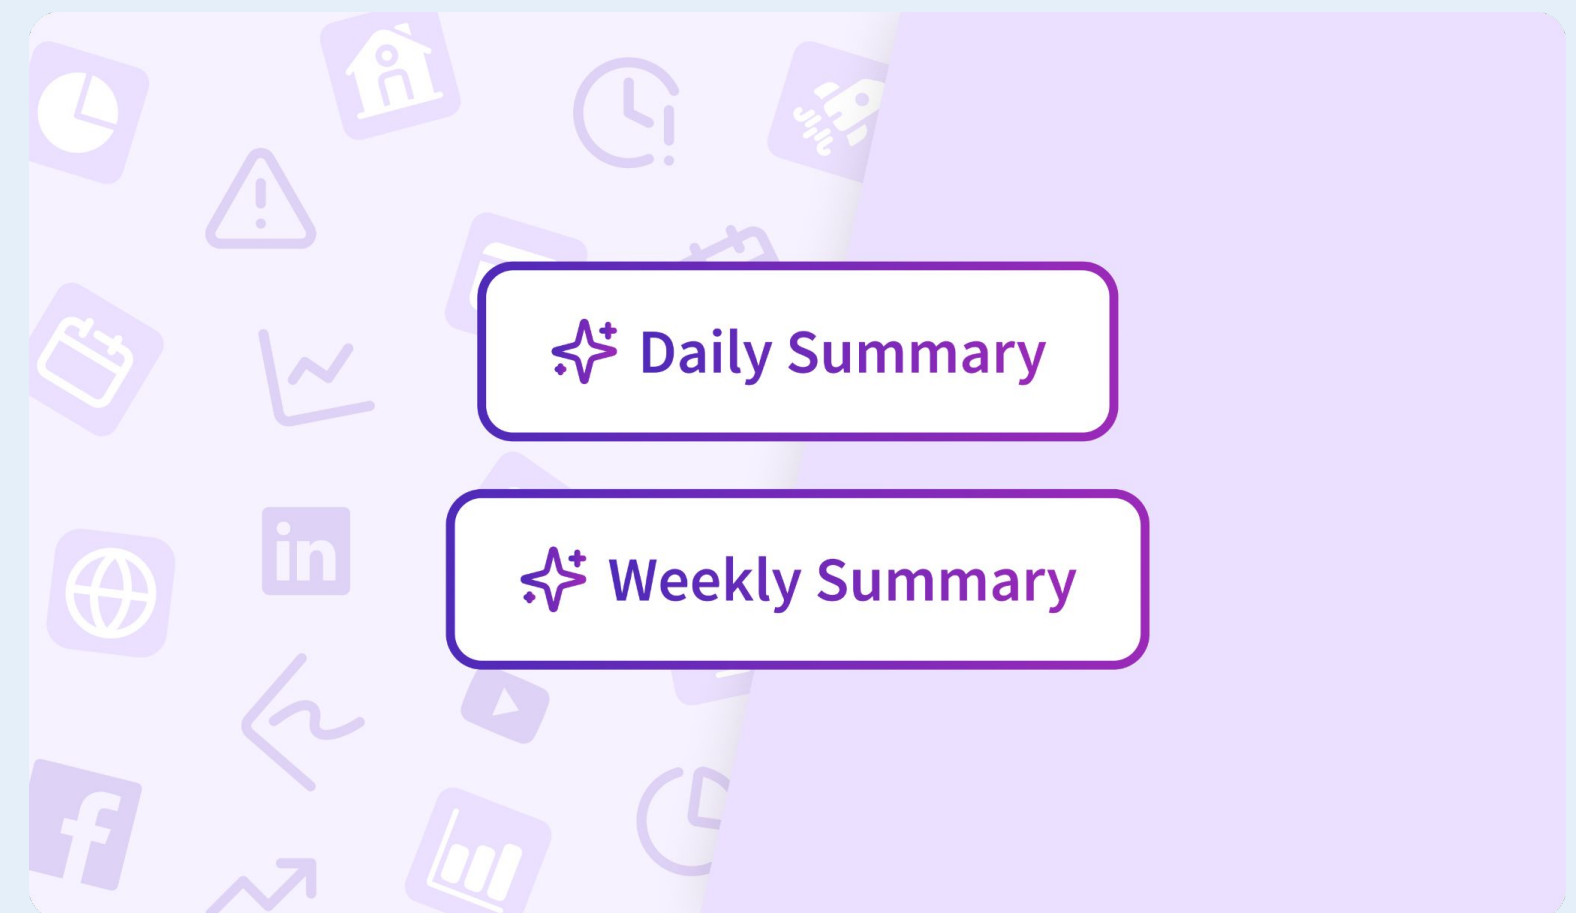

AI Summary

See your team's productivity at a glance,
without digging through reports yourself

DeskTime's AI **turns raw tracked data into plain language summaries**, telling you how productive your team was and where things could improve, without you having to interpret a single chart yourself.

CASE STUDIES

Companies DeskTime works best for

 Team Size
20-100 employees

 Industry
IT, software, agencies

 Work Setup
Remote, hybrid, multi-site

Common challenges:

- 1 No visibility into capacity and resource use
- 2 Difficulty overseeing remote teams
- 3 Manual timesheets can't keep up with compliance
- 4 Payroll rules vary by department and country

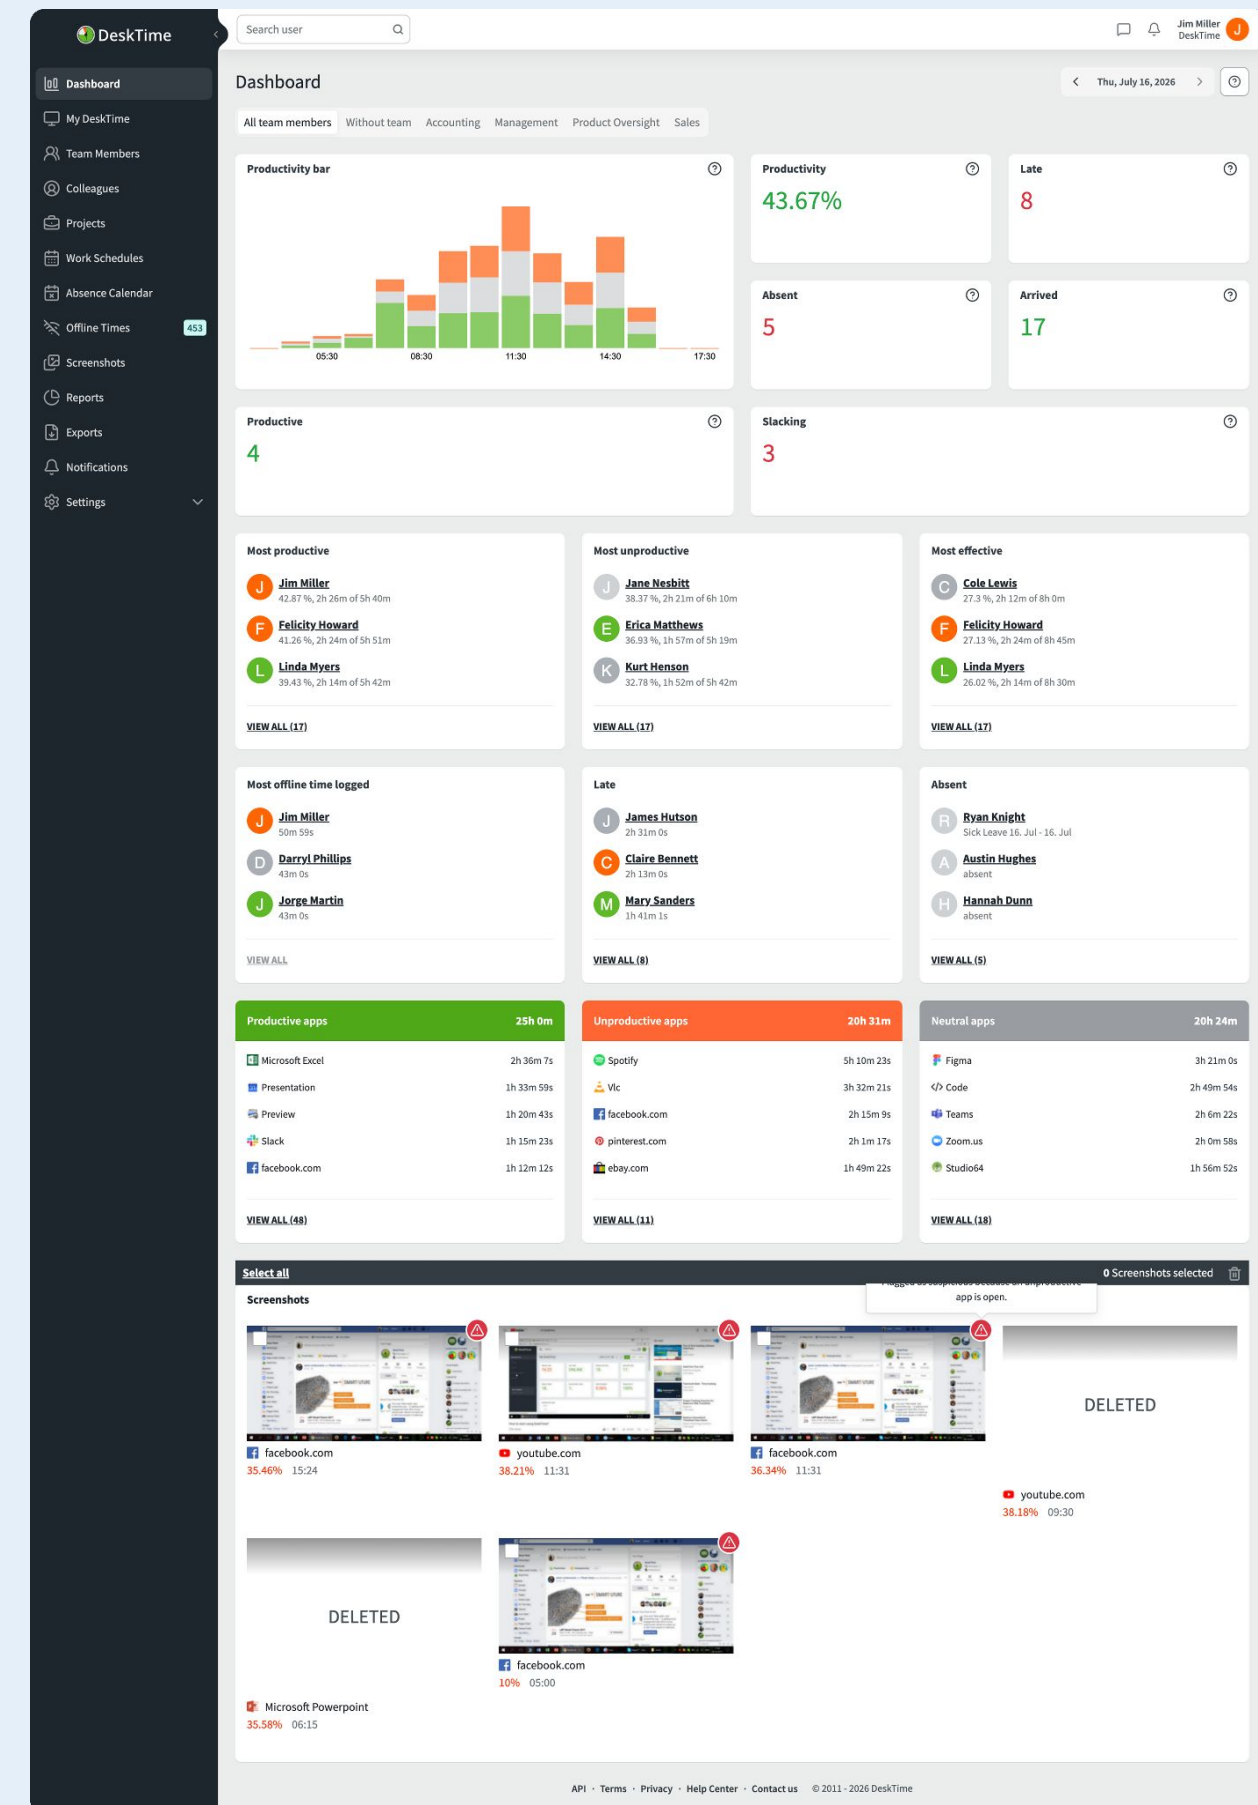

Pain Point #1

No visibility into capacity and resource use

Paperlust's 45 person team, spread across 9 departments, had no clear way to see how long tasks took, making it hard to plan resourcing or budgets for future projects.

✓ How DeskTime Resolved It

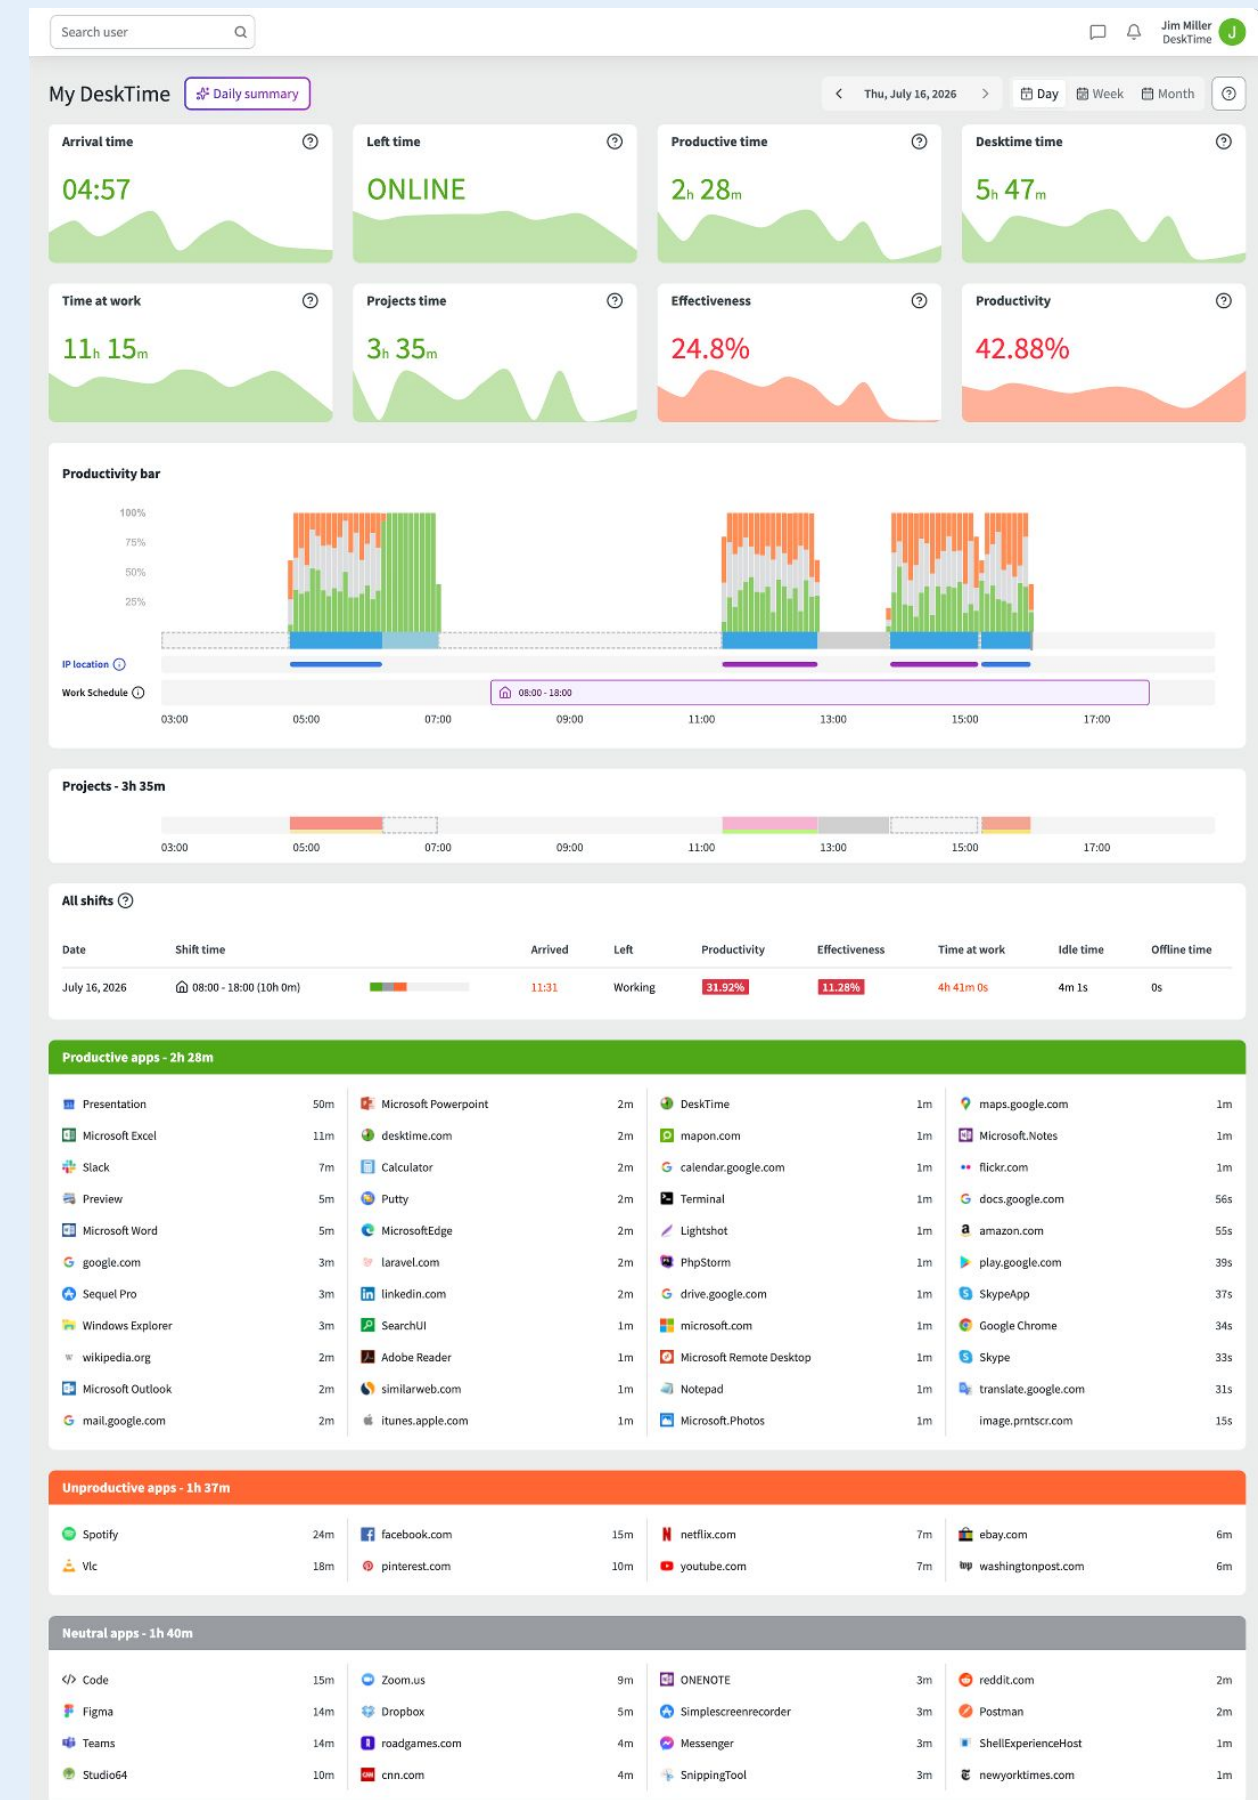

Detailed reports showed **exactly how time was spent by project**, letting managers allocate resources accurately, estimate future workloads, and catch unproductive overtime before it became a bottleneck.

Two offices made remote teams hard to manage

How DeskTime Resolved It

DeskTime let the CEO check in on both offices **without micromanaging**, keeping team productivity above 80% for two years running.

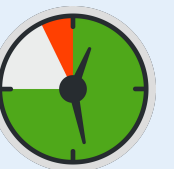

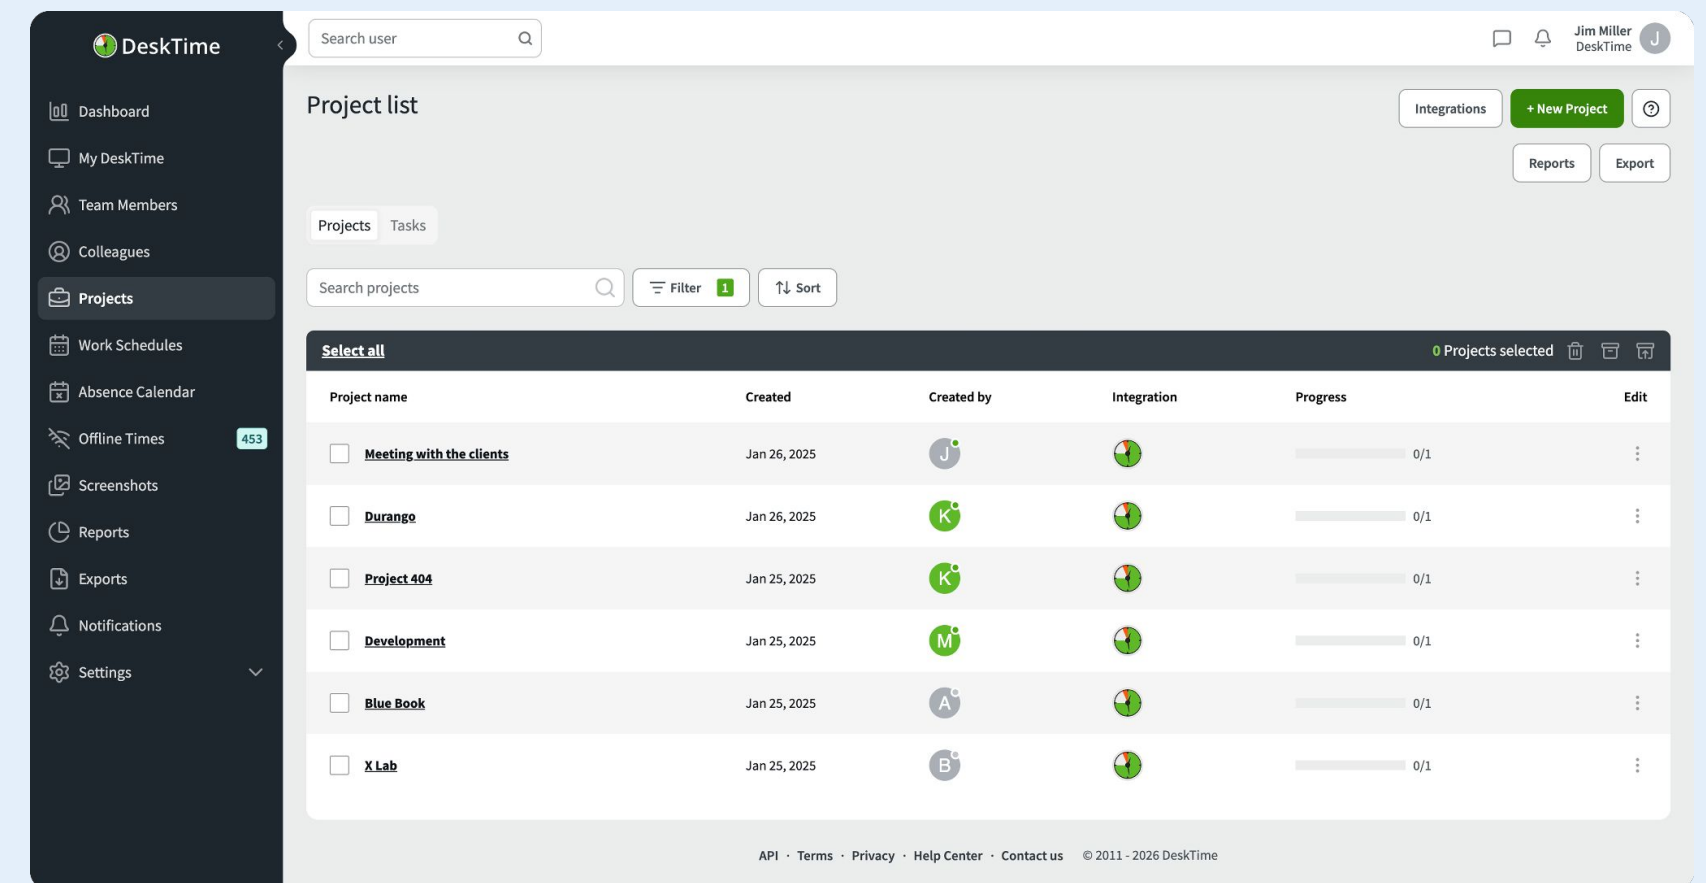

Pain Point #3

Manual timesheets couldn't keep up with compliance

In countries like Poland and Slovenia, [Skrivanek](#) was legally required to track working hours. Before DeskTime, employees signed paper timesheets by hand, a slow, manual process.

✓ How DeskTime Resolved It

DeskTime automated the process, giving SkrivaneK accurate records without the paperwork, **saving time for managers and employees.**

Pain Point #4

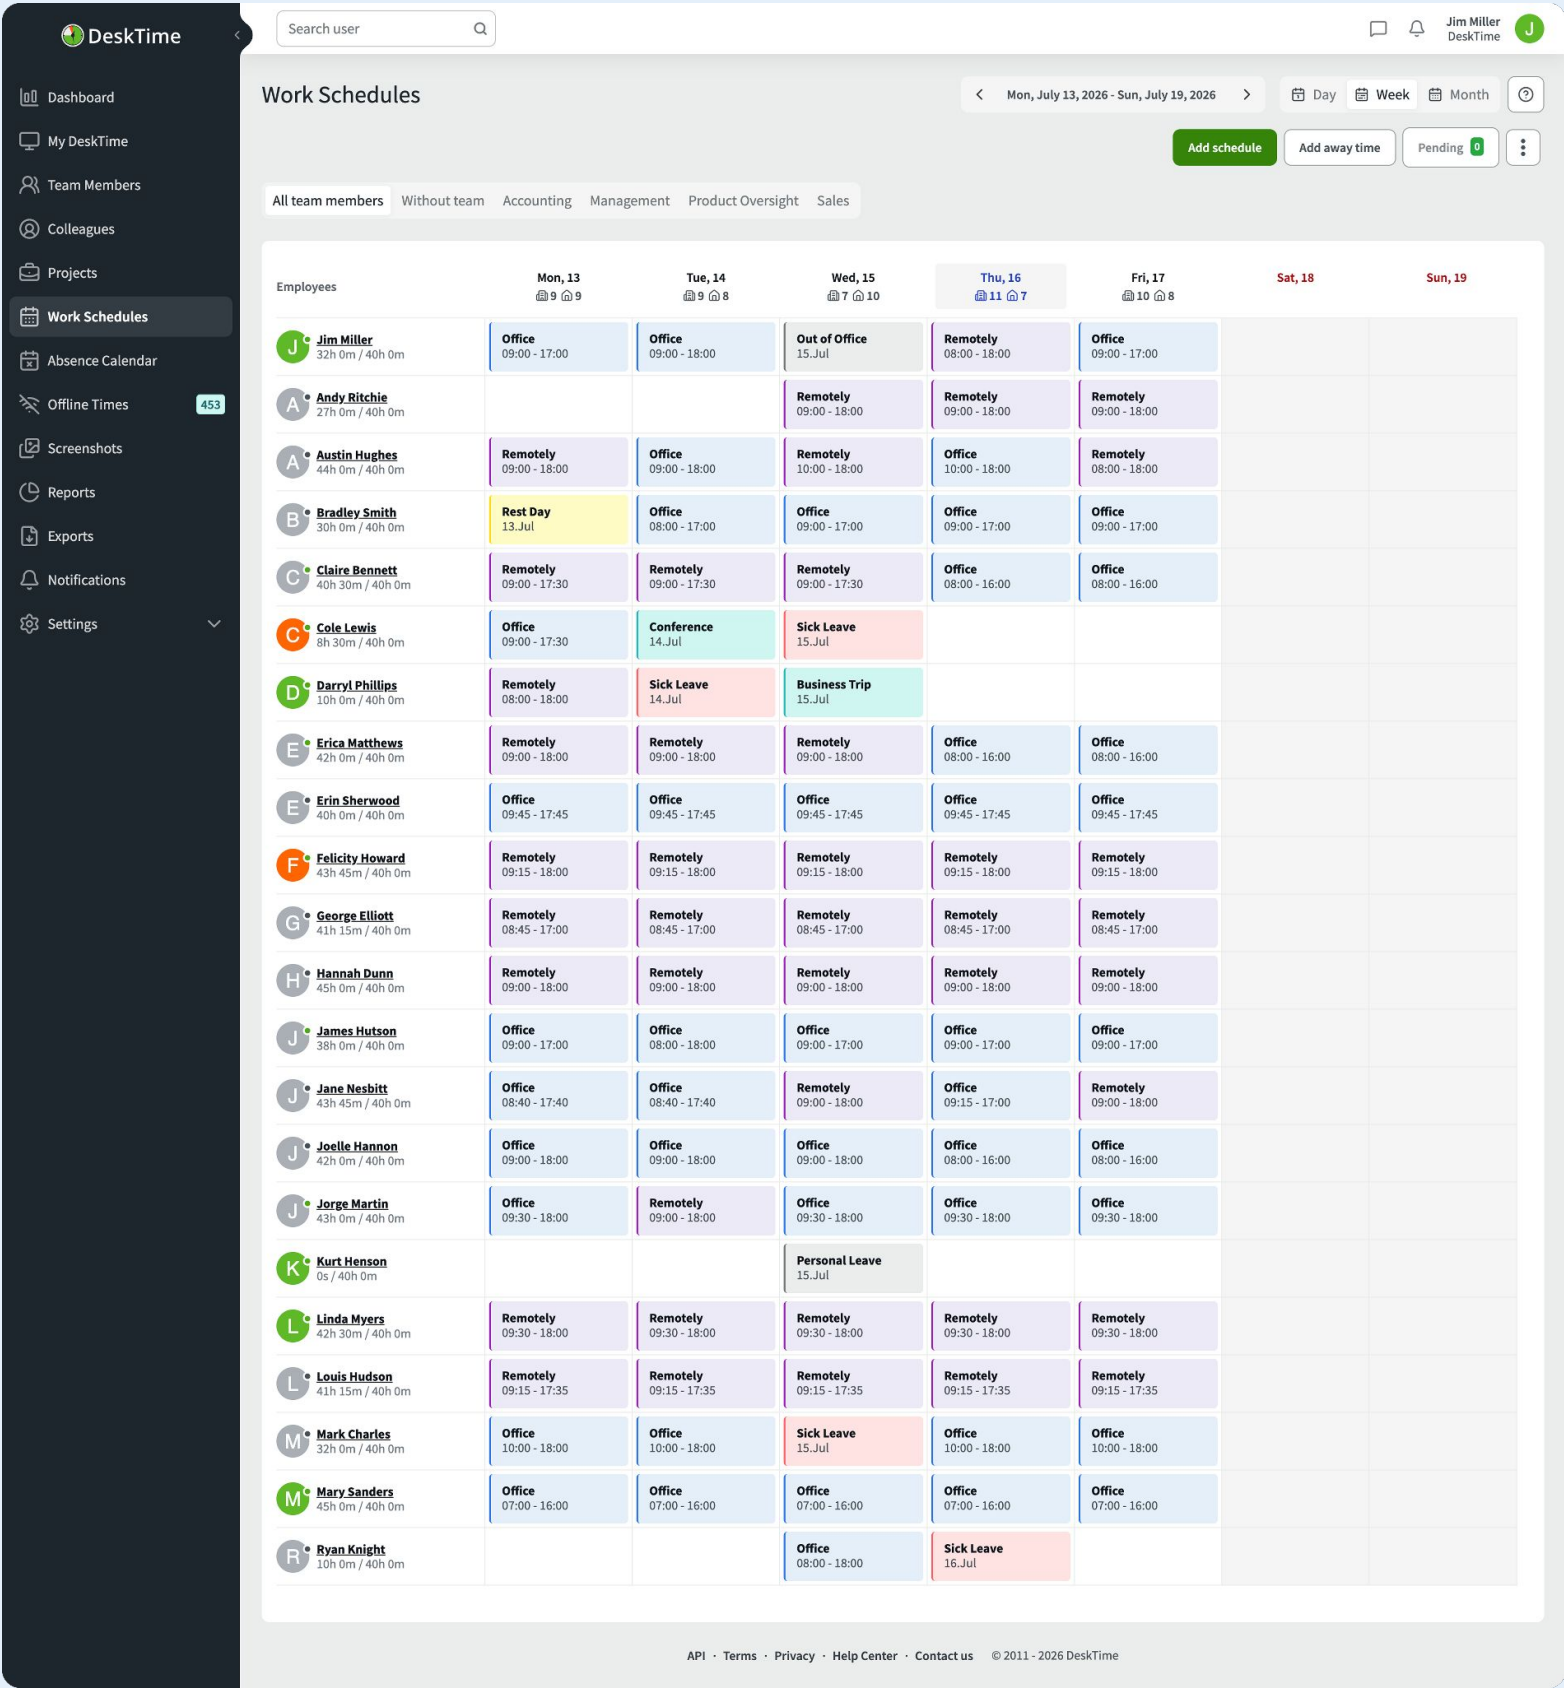

Payroll rules varied by department and country

With 25 teams across 20 departments, Montway had different overtime rules, pay types, and time keeping needs in every location, making manual tracking error prone.

How DeskTime Resolved It

DeskTime automatically recorded exact hours for every employee, removing rounding errors and paper timesheets, and giving payroll clean, reliable data to run on.

HasTech: real cost savings, real revenue growth

The Challenge

2x

Project Delays

Before DeskTime, HasTech's projects regularly took twice as long as estimated.

The Solution & Results

+40%

Revenue Growth

By tracking time automatically, they were able to complete projects on schedule, driving both the reported savings and a revenue increase of nearly 40% since adopting DeskTime.

Some of the proud users of DeskTime

Ministry of Economics
Republic of Latvia

Here's what managers have to say...

Desktime helps me stay productive and to limit time

I know that at the end of the week, I want not to exceed a certain number of hours, but I also set myself some productivity % goals (time focused on certain apps / total time). I have used it for more than 7 years.

Marc Miquel
Senior User Researcher, Enterprise

Efficient time tracking and productivity insights with DeskTime

I am an IT admin as well as a project lead. My job is to monitor and manage my employees, who mainly work from home. With DeskTime, we can measure their productivity, monitor their worktime activity, and evaluate their performance based on their time efficiency.

Sreejith B.
Assistant Manager, Mid-Market

Highly efficient tool

It allows me to see where I spend my day, find opportunities to improve my productivity, and balance my work with necessary breaks. It's a tool that gives me clarity without being intrusive. It also allows me to control my work team and measure their level of productivity.

Diego Carballo
CISO, Mid-Market

"Our goal is to help businesses create a **fair working environment** where everyone can work effectively and **maintain a healthy balance** between work and private life."

Artis Rozentals
CEO of DeskTime
